

## **Counseling Psychology Competency Examination (CPCE) Information Sheet, summer 2012**

### **Description**

The Counseling Psychology Competency Exam (CPCE) is a computer-based multiple choice format assessment. All MACP students are required to take the CPCE in order to graduate. The CPCE tests students' knowledge and application of coursework taught throughout the MACP program.

### **Important dates**

The CPCE will be offered 3 times each academic year during the second half of each semester – fall, spring, and summer. The computer-based exam will be administered in the AUSFBA computer lab. During the summer 2012 semester, the CPCE will be offered two (2) times and one (1) remediation day is scheduled. The summer 2012 dates are:

- Friday, July 6, starting at 9am, and
- Saturday, July 7, starting at 9am
- Remediation date: Friday, July 27 starting at 9am

Information meetings are scheduled each semester. They provide students with additional details about the CPCE, including further description of the three (3) assessment sections (Clinical Evaluation and Crisis; Treatment Planning; Ethics and Law), test format, effective study skills/habits, and strategies for managing test anxiety. The CPCE Candidate Handbook (available through the Student Portal) provides complete information for students planning on taking the CPCE. In summer 2012, a CPCE information meeting will be held at AUSFBA on the following date:

- Tuesday, June 6, 5:30-6:30pm (room TBA)

### **How to register and for additional information**

To register for the CPCE, students are required to complete an official CPCE Readiness Petition and submit it to Dr. Ian Wallace. To obtain this form and for additional information, including the CPCE Candidate Handbook and other documents, please access your Student Portal. For questions about the CPCE contact Dr. Ian Wallace at [iwallace@argosy.edu](mailto:iwallace@argosy.edu) or 510-217-4746.
