Community Health Awareness Council		Bilingual in treatment Comm Mental Health Clinic Domestic Violence Family LGBTQ Psychological Assessment Psychology of Men Psychology of Women PTSD/Trauma School Based Spirituality/Psychology Integration Substance Abuse Treatment Vocational/Career Development	We are a large community mental health center in existence for 35 years, with multiple programs you can get involved in. SES ranges over a wide spectrum from very low to affluent. We have school-based and in-house programs. School-based services include individual, group, and psycho-educational interventions. In-house services include assessment, short and long-term psychotherapy for adults with problems ranging from acute crises to long-term issues. Individual, couple, family, and group therapy are offered. Our orientation is integrative, with supervisory staff highly trained and experienced in CBT, psychodynamic, narrative, art therapy, play therapy, gestalt, and other modalities. Supervision consists of intensive observation of your work by means of audiotape, videotape, one-way mirror observation. The goal of supervision is to help you add to your therapy tool box, while integrating what you have learned cognitively into your own style as a therapist, drawing on your own special strengths. We also have a research program, and students can get involved in this. Contact Stewart Kiritz (650) 387-6120 for more details and to apply.	BP/AP

Community Health for Asian Americans	Comm Mental Health Clinic Family Multicultural Therapy Psychological Assessment PTSD/Trauma Other	CHAA is a community-driven provider of behavioral health, youth development, and family support services to the historically underserved Asian/Pacific Islander community of the Bay Area. Strengthened by a diverse professional staff with roots in the API community, CHAA understands families from various API cultures. The agency offers its services on a personal level, focusing on treatment in and beyond the clinical environment. CHAA provides services to local schools, youth, and families. CHAA is also uniquely positioned to provide leadership and a voice for API communities through community organizing, advocacy, and social systems transformation in the Bay Area. Together with key partner organizations, CHAA is able to listen to the needs of the greater Bay Area API community, and respond quickly and effectively with appropriate services. CHAA provides a variety of services in Alameda and Contra Costa County. The CHAA Oakland site offers children's mental health services (individual, group and family therapy, case management); co-occurring mental health/alcohol and other drugs treatment for youth; and adult mental health services. Services are provided at our Oakland office site and at the following school sites: Oakland High School, Garfield Elementary, Bella	BP/AP	
Community Institute for Psychotherapy (CIP)	Comm Mental Health Clinic Domestic Violence Family LGBTQ Psychological Assessment Psychology of Women PTSD/Trauma School Based Substance Abuse Treatment	Community Institute for Psychotherapy (CIP) is a nonprofit, tax exempt agency founded in 1977 to provide high quality, low-fee mental health services for individuals and families who don't have the resources to pay full fees for professional help. CIP offers a broad range of counseling services designed to meet a variety of needs. At CIP we believe that through psychotherapy, training, education, and prevention, we play a vital role in personal and global change. We believe that the healing of the individual and the healing of the planet are inseparable. CIP offers rigorous clinical internships for graduate students in psychology, social work, and counseling. Each year, we have a total of 22 to 24 interns (pursuing their PhD, PsyD, MFT, or LCSW). Our training and supervision provides exceptional opportunities for individuals interested in working in a community-based environment with a diverse population and a wide range of issues. We promote service as a means to reinforce positive values and to help build strong, resilient families, schools, and communities. We offer a flexible work environment that honors cultural differences and promotes an atmosphere of continuous learning.	BP/AP

Forensic Mental Health Unit (CONREP)	Community Mental Health Center	Forensic Psychology Serious Mental Illness Substance Abuse Treatment	While county administered, we are a fully state funded program called the Conditional Release Program. We provide supervision and treatment for adults who have committed a felony level offense, usually of a violent nature. Clients have either been found not guilty by reason of insanity, or, if convicted of a crime, have been designated Mentally Disordered Offenders. Typically, clients have spent several years in state hospital before being considered stable enough to supervise in the community. We provide a full range of mental health and case management services to a small group of seriously mentally ill adults.	BP/AP
Golden Gate Conditional Release Program (CONREP)	Community Mental Health Center	Domestic Violence Forensic Psychology Hospital Psychological Assessment PTSD/Trauma Serious Mental Illness Substance Abuse Treatment	The Golden Gate Conditional Release Program provides court-ordered outpatient treatment and supervision to persons from Marin, San Francisco, and San Mateo counties who are adjudicated as Not Guilty by Reason of Insanity (Penal Code Section 1026) when tried for their crimes and those who, while in prison for their crimes, were found to be Mentally Disordered Offenders (Penal Code Section 2962.) In general, this agency treats persons with major mental illnesses who have committed violent crimes. The Conditional Release Program is the California Department of Mental Health's community based treatment program.	BP/AP
Goodwill of Silicon Valley	Community Mental Health Center	Comm Mental Health Clinic Domestic Violence Family Multicultural Therapy Psychological Assessment PTSD/Trauma Serious Mental Illness Substance Abuse Treatment	The practicum site, Goowill Wellness Center, is a free mental health clinic located on the premises of Goodwill Silicon Valley in San Jose. Goodwill Wellness Center to offers free therapy, addiction counseling (a separate program within the clinic) and psychological assessment to a variety of individuals in need within the community. It is limited to adults and adolescents who cannot afford mental health services. We offer unlimited individual, group, family and couples therapy. Supervision and didactic training are psychodynamically oriented.	BP/AP
Haight Ashbury Psychological Services			Haight Ashbury Psychological Services is a private, non-profit, sliding-scale, outpatient clinic (lowest fee clinic in Bay Area). Individuals who present with an active substance or alcohol addiction, in crisis or suicidality and/or psychosis are screened out. The clinic operates much like a private practice model.	BP/AP
Holy Names University	University Counseling Center	College Based Multicultural Therapy Psychology of Men Psychology of Women PTSD/Trauma Substance Abuse Treatment	Holy Names Counseling & Psychological Services provides individual psychodynamic psychotherapy for undergraduate and graduate students, as well as crisis assessment and intervention, group therapy, educational programming, outreach, and referral services. Consultation with University faculty and staff is also offered. We are committed to providing psychology training that results in psychoanalytically informed treatment that also considers the patient's biological, social, environmental, cultural, and economic context.	AP
Institute on Aging		Behavioral Medicine Bilingual in treatment Death Dying Bereavement Domestic Violence Family Geropsychology Health Psychology LGBTQ Multicultural Therapy PTSD/Trauma Serious Mental Illness Substance Abuse Treatment Other	Institute on Aging (IOA) is a community-based, not-for-profit organization that touches the lives of thousands of seniors in San Francisco, Marin, and the Peninsula each year. IOA's mission is to enhance the quality of life for adults as they age by enabling them to maintain their health, well-being, independence, and participation in the community. We fulfill this mission for a diverse community by developing and providing innovative programs in health, social service, creative arts, spiritual support, education, and research. Because many of our clients have difficulties with mobility and transportation, we offer clinical services outside of our clinic in private residences, doctor's offices, and nursing homes--providing a unique training experience in the provision of clinical services in non-traditional settings.	BP/AP

Lincoln Child Center	<p>Domestic Violence Family Multicultural Therapy Pediatrics PTSD/Trauma School Based Other</p>	<p>Lincoln Child Center enables vulnerable and emotionally troubled children and their families to lead independent and fulfilling lives. We believe that all vulnerable and emotionally troubled children need and deserve the opportunity to receive supports and services that will help them to be successful at home, in school and in their community. We believe that children and families heal through engagement, relationship and learning new ways of coping with their unique challenges. We believe that all aspects of the child's life - family, culture, community, education, religion, ethnicity - must be woven into the treatment process in order to have a lasting impact. We honor diversity and view all children and families as having abilities, interests, and skills. We draw on and build on these strengths in our work with children and families. We actively engage and partner with the whole family and we ensure that parents/caregivers are integral to our services, and that children are connected to their families of origin and communities whenever possible. We utilize best practices, which include evidence-based practices that are sensitive to diverse cultures and communities to achieve positive outcomes with children and families. We provide an array of services based on the individual needs of children and families that will utilize a proactive clinical care team that includes interagency and community collaboration. We focus on providing early intervention and prevention services whenever possible in order to reduce the risk of children moving to higher levels of care. Lincoln's integrated school and day treatment program provides special education and intensive mental health services to students in grades K-8. Staffed by certified special education teachers, teachers provide instruction in small classrooms of 10-12 students. Mental health staff provide individual, group and family counseling, rehabilitative therapies, crisis intervention and psychiatric treatment. The Residential Program is a safe and secure home for 16 children, providing 24-hour support and guidance from caring, highly-trained residential counselors. The multi-disciplinary program offers a range of treatment services including rehabilitative therapy, individual group and family counseling, crisis intervention and medical and psychiatric treatment. Many of these children also attend our Non-Public School/Day Treatment program. With the emphasis on developing critical life skills in a healthy environment, the children begin to develop self-esteem and self-control, heal their emotional wounds, and fulfill their potential to lead rewarding lives in the community.</p>	AP
Lomi Psychotherapy Clinic	<p>Comm Mental Health Clinic Death Dying Bereavement Domestic Violence Family LGBTQ Multicultural Therapy Psychology of Men Psychology of Women PTSD/Trauma Serious Mental Illness Community Mental Health Center Spirituality/Psychology Integration</p>	<p>The Lomi Psychotherapy Clinic is a Licensed Psychology Clinic by the State of California and is an affordable, non-profit counseling clinic and training program for predoctoral, postdoctoral and post-master's psychology interns. Each year, the Clinic provides over 8,000 hours of mental health care; clinic interns and staff provide brief and long-term therapy to individuals, couples, families, children and adolescents. Group therapy and psychoeducational classes are also offered. The Clinic manages the Ryan White Mental Health Care Program for Sonoma County, providing free counseling services to persons infected with, or affected by, HIV/AIDS. It also has a grant-supported program offering short-term therapy for persons who are impoverished or homeless. The Lomi Psychotherapy Clinic serves a very diverse population in terms of socioeconomic, cultural, ethnic, religious and sexual orientation status. The Clinic's theoretical orientation is an integration of psychodynamic and family system theories embedded in an awareness of the whole person's experience, with an emphasis on somatic and mindfulness therapy. The Clinic's ambiance is collegial, open and supportive within a professional and structured framework.</p>	AP
Marin County Department of Health and Human Services	<p>Behavioral Medicine Bilingual in treatment Comm Mental Health Clinic Domestic Violence Family Forensic Psychology Geropsychology Multicultural Therapy PTSD/Trauma Serious Mental Illness Other Community Mental Health Center</p>	<p>Marin County CMHS provides both emergency and continuing care to a diverse client population with a wide range of challenging mental health needs.
