Course Description:

This survey course is designed to help students understand the basic concepts of psychological assessment, its purpose, and its clinical applications. Students will become familiar with commonly used assessment tools and their functions, and their psychometric properties. Basic statistical concepts will be covered to facilitate an understanding of reliability, validity, scaling and norming in test construction, as a foundation for assessing tests and test results. The implications of assessment for different populations based on age, ethnicity, and stages of development will also be covered. Thoughtful consideration to the implications of test results, the making of referrals for testing, and the impact of cultural and ethical issues will enable students to effectively utilize psychological assessment information in mental health settings.

Required Textbook:

Kaplan, R. M., & Saccuzzo, D. P. (2005). *Psychological Testing: Principles, Applications, and Issues, 6th Edition*. Belmont, CA: Wadsworth/Thomson Learning.

relationships with other students and faculty.

Course Requirements:

This course is taught in a blended format that involves in-class didactic and group learning experiences paired with posted lecture material, discussion groups, and assignments. Online course curriculum will be presented through the Argosy Internet eCollege platform. Throughout the duration of the course, students will be expected to read the required texts, participate in online discussions, and complete all assignments as indicated; students will also be expected to participate meaningfully to class discussions and exercises.

Assignments should be submitted through the appropriate Dropbox in eCollege and are due by 5pm Pacific Time on their respective due dates. **No late work will be accepted without prior permission from the instructor.** In addition, Argosy's plagiarism policy is strongly in effect in my classes. **All assignments must be completed in order to pass the course.**

Since online discussion is the heart of effective online learning, students are expected (i.e., required) to post to the discussion board to demonstrate their full engagement with the material (a minimum of two times per week). Students will respond to the weekly discussion thread presented, respond to classmates' ideas in a thoughtful manner, and/or start a new discussion thread that relates to the material in some manner. **In addition, given the importance of the weekend meetings, absences that are not accompanied by a doctor's note or similar evidence of emergency will result in automatic failure of the course.**

Library

All resources in Argosy University's online collection are available through the Internet. The campus librarian will provide students with links, user IDs, and passwords.

Library Resources: Argosy University's core online collection features nearly 21,000 full-text journals and 23,000 electronic books and other content covering all academic subject areas including Business & Economics, Career & General Education, Computers, Engineering & Applied Science, Humanities, Science, Medicine & Allied Health, and Social & Behavior Sciences. Many titles are directly accessible through the Online Public Access Catalog at <http://library.argosy.edu>. Detailed descriptions of online resources are located at <http://library.argosy.edu/misc/onlinedblist.html>.

In addition to online resources, Argosy University's onsite collections contain a wealth of subject-specific research materials searchable in the Online Public Access Catalog. Catalog searching is easily limited to individual campus collections. Alternatively, students can search combined collections of all Argosy University Libraries. Students are encouraged to seek research and reference assistance from campus librarians.

Information Literacy: Argosy University's Information Literacy Tutorial was developed to teach students fundamental and transferable research skills. The tutorial consists of five modules where students learn to select sources appropriate for academic-level research, search periodical indexes and search engines, and evaluate and cite information. In the tutorial, students study concepts and practice them through interactions. At the conclusion of each module, they can test their comprehension and receive immediate feedback. Each module takes less than 20 minutes to complete. Please view the tutorial at <http://library.argosy.edu/infolit/>

Academic Dishonesty/Plagiarism

In an effort to foster a spirit of honesty and integrity during the learning process, Argosy University requires that the submission of all course assignments represent the original work produced by that student. All sources must be documented through normal scholarly references/citations and all work must be submitted using the *Publication Manual of the American Psychological Association, 5th Edition (2001)*. Washington DC: American Psychological Association (APA) format. Please refer to Appendix A in the *Publication Manual of the American Psychological Association, 5th Edition* for thesis and paper format. Students are encouraged to purchase this manual (required in some courses) and become familiar with its content as well as consult the Argosy University catalog for further information regarding academic dishonesty and plagiarism.

Additionally, Argosy University considers resubmission of a work produced for one course in a subsequent course or the submission of work done partially or entirely by another to be academic dishonesty. It is the student's responsibility to seek clarification from the instructor regarding how much help may be received in completing an assignment, exam or project and what sources may be used.

Scholarly writing:

The faculty at Argosy University is dedicated to providing a learning environment that supports scholarly and ethical writing free from academic dishonesty and plagiarism. This includes the proper and appropriate referencing of all sources. You are responsible for maintaining an electronic copy of any work submitted, because you may be asked to submit your course assignments through "Turnitin," (www.turnitin.com), an online resource established to help educators develop writing/research skills and detect potential cases of academic dishonesty. Turnitin compares submitted papers to billions of pages of content and provides a comparison report to your instructor. This comparison detects papers that share common information and duplicative language.

Americans with Disabilities Act Policy

It is the policy of Argosy University to make reasonable accommodations for qualified students with disabilities, in accordance with the Americans with Disabilities Act (ADA). If a student with disabilities needs accommodations, the student must notify the Director of Student Services. Procedures for documenting student disability and the development of reasonable accommodations will be provided to the student upon request.

Argosy University/SFBA

1005 Atlantic Avenue, Alameda, CA 94501 510-217-4700 Toll Free: 866-215-2777

Students will be notified by the Director of Student Services when each request for accommodation is approved or denied in writing via a designated form. To receive accommodation in class, it is the student's responsibility to present the form (at his or her discretion) to the instructor. In an effort to protect student privacy, the Department of Student Services will not discuss the accommodation needs of any student with instructors. Faculty may not make accommodations for individuals who have not been approved in this manner.

The Argosy University Statement Regarding Diversity

Argosy University prepares students to serve populations with diverse social, ethnic, economic, and educational experiences. Both the academic and training curricula are designed to provide an environment in which students can develop the skills and attitudes essential to working with people from a wide range of backgrounds.

Your instructor is responsible for delivering this curriculum in a format that will ensure the objectives are met and measured. This can be accomplished in a variety of ways depending upon the experience, orientation, technological acumen, emphasis and preferences of the instructor as well as the resources available. Your instructor is also required to ensure that the course Outline include details regarding assignments and method of instruction.
